Hi Lindsay

Contracting in the Public Sector Update

It was recently announced that the successor to the much maligned CL1 (Contingent Labour 1) resourcing contract for the Public Sector has been awarded to (AMS) Alexander Mann Solutions. The transition date is set for 18th June 2018 when AMS will take over the reins from Capita as well as the responsibility for CL2 and CL3 streams.

The new resourcing model, currently tagged PSR (Public Sector Resourcing) will continue to service the contingent labour requirements of contracting authorities such as the Home Office, Ministry of Justice and the Ministry of Defence etc. through a standard framework which aims to deliver:

- A simple, effective and streamlined user focussed solution
- Prompt turnaround of fulfilment and compliant onboarding
- Flexibility to meet the changing needs of Contracting Authorities & the UK contingent labour market
- Improved access to a flexible workforce and untapped workers
- Value for money, transparency of spend and year-on-year savings

At this time there is limited information regarding what the changes will mean in terms of day-to-day operations, though as a current supplier of Programme and Project Management practitioners we anticipate that Arras People will be retained along with our current workers.

As more information becomes available we will keep all our stakeholders updated.
